Fraction Worksheets – Part of a group

Writing fractions as a part of group of objects – Practice using fraction worksheets

A group of objects is given for all ***fraction worksheets***. Kids need to follow the directions to write a fraction for the part of group having different characteristics. First problem is solved for explanations:

1) 	***Fraction of circles to total shapes*** $\frac{Number\ of\ circles}{Total\ number\ of\ shapes} = \frac{1}{4}$
2) 	
3) 	
4) 	
5)
